Climate Protection Statement

Dear Sirs,

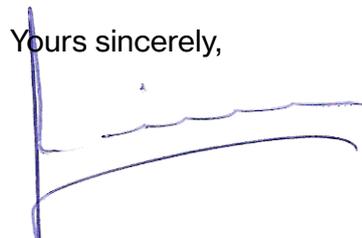

KBM Affilips endorses the EU emission reduction targets laid down in the EU Green Deal and the Fit for 55 program, reducing its emissions by at least 55% by 2030 and be climate-neutral by the year 2050.

The company's carbon footprint inventory is carried out in accordance with the international GHG-Protocol.

KBM Affilips' designated Decarbonization Team is working steadily on carbon reduction measures to achieve the set targets in time and on refining the footprint inventory as well as the intensity metrics.

On behalf of the KBM Affilips group of companies.

Yours sincerely,

G.M.J.L. Gielen
Managing Director
